

Jeel Sureja

Senior Software Engineer

jeelsureja11@gmail.com jeelsureja.lovable.app Remote / Worldwide

Full-stack engineer with 8+ years shipping commerce, fintech and healthcare products. I design calm, reliable systems from data model to interface, with a strong focus on clean architecture, performance budgets, accessibility and documentation that survives handover.

CORE SKILLS

Frontend

HTML5, CSS3, JavaScript, TypeScript, jQuery, Bootstrap, Tailwind CSS, React.js, Next.js

Backend

PHP, Laravel, Node.js, Express, REST APIs, GraphQL, queues, cron, CI/CD, testing

Database

MySQL, PostgreSQL, MongoDB, Redis, schema design, query optimisation, migrations

CERTIFICATIONS

- AWS Certified Solutions Architect — AWS, 2024
- Meta Frontend Developer Professional — Meta, 2023
- Google Cloud Professional Data Engineer — Google Cloud, 2022

AWARDS

- Hackathon Winner — Best Healthcare API, DevFest India, 2021

EXPERIENCE

Senior Software Engineer • Northwind Labs 2022 — Present
Own architecture for two revenue-critical products; mentor four engineers and lead API and database design reviews.

Full-stack Engineer • Brightpath Digital 2019 — 2022
Delivered Laravel and React platforms for fintech and healthcare clients, with a focus on performance and clean data models.

Web Developer • Studio Kite 2017 — 2019
Built responsive marketing sites and dashboards using HTML, CSS, jQuery and Bootstrap for agency clients.

SELECTED PROJECTS

Headless Commerce Platform
Next.js + Laravel + PostgreSQL rebuild of a legacy storefront. **62% faster checkout**

Realtime Analytics Suite
Node.js streaming pipeline and MongoDB dashboard. **40M events / month**

Clinic Operations Portal
Multi-tenant Laravel portal replacing legacy jQuery screens. **180+ clinics onboarded**
